# KRONACH in lights

## Lighting design festival: April 24th – May 3rd, 2020

Imagine a medieval settlement nestled at the foot of a fortress, a town composed of narrow alleys and courtyards, squared and underground passageways. You might know such things from novels, and now imagine this 1000 years old place as a setting of a lighting festival. The light creates a new experience, it exposes what stays unseen during the day and highlights the beauty the town at the same time by revealing it in another perspective. The annual lighting festival takes place since 2006. Locals get together and guests from near and far are attracted by the festival with up to 120.000 visitors in 2019. This is Kronach and “KRONACH in lights”

During the festival Kronach offers visitors a number of activities, ranging from concerts and exhibitions, to guided tours, accompanied by a variety of local food and beverages. One of Kronachs many advantages is that all installations and events are close to each other. They are located in the quaint part of the old town of Lucas Cranach protected by its hilltop castle, one of the most well-known fortresses in Germany. Starting in 2006 in a rather small town “KRONACH in lights” is now a hotspot for international lighting designers and artists. All over Kronach´s splendid beauty offers an ideal surface for video and laser projections, lighting art objects and modern architectural lighting design compositions.

## International workshops: April 19th – April 24th, 2020

KRONACH in lights starts with the lighting design workshops that are a main part of the lighting festival. “KRONACH in lights” invites lighting design and architectural students as well as professionals to participate in a 5-days intense workshop in Kronach.

### What´s your task?

Five lighting installations will be designed and installed by the workshop groups. That means:

- Create your own concept
- Find solutions for your ideas and make your concept come true
- Describe and present your concept to the other workshop participants

### Your Benefits:

- Working in an international team in a unique city
  - Deepen or create your knowledge about light
  - Guided by experienced lighting designers and experts
  - Combination of theoretical knowledge and practical work
  - Presentation of the installations to a wide audience
- Get to know Germanys most beautiful lighting festival and the unique spirit of the lighting community!

### Quick facts and numbers:

- Registration fee: 300 EUR  
(early bird: before March 1st, 2020)/350 EUR afterwards
- Registration deadline: April 1st, 2020
- Included: accommodation, breakfast, dinner and midnight-snacks

Interested? Please have a look on your website [www.kronachleuchtet.com](http://www.kronachleuchtet.com) for further Information and the application process or ask, Andy Siegemund and Daniel Ströhlein → Contact on the rear page.
